

Matej Minar

I am a javascript engineer who loves building beautiful and intuitive UIs. I always like to learn new things and contribute to the open source, as I am very grateful for the community and owe it so much.

WORK EXPERIENCE

Brackets, Bratislava/Luxembourg — *Front-End Developer*

July 2017 - October 2019

building robust single page applications, helping junior developers with their code and overseeing the quality of software, keeping the team up to date with latest javascript features, writing documentation, contributing to the company's open source tool, doing code reviews

Triad Advertising, Bratislava/Prague — *Web Developer*

June 2016 - July 2017

programming backend/api for various web apps, crafting mobile applications (iOS & Android), creating chatbots, coding visually attractive marketing websites with focus on SEO and performance

ASData, Nitra — *Designer & Front-End Developer*

November 2014 - June 2016

designing landing pages, slicing PSDs into responsive html/css/js, coding custom wordpress themes

Webnotion, Nitra — *Web Developer & Co-Founder*

January 2014 - June 2016

sketching wireframes, designing pixel perfect mockups of websites/apps with focus on User Experience, preparing interactive prototypes, writing user requirements, estimating price/time, meeting clients

PROJECTS

Up Slovakia: corporate SPA for buying/managing/using employee meal vouchers and cards in the whole country (React, Typescript, MobX, Jest)

REMP: Google funded open source readers' engagement and monetization platform (React, Redux, Vue, Vuex)

Craftable: open source toolkit for building administration interfaces, starting point for developing back-office systems, intranets or CMS systems (Vue, Laravel)

Grape: mobile application for one of the biggest music festivals in Slovakia which has taken the first place in App Store Top Free chart (Angular, Ionic)

* I would love to chat about these projects and my role in them in greater detail upon request.
